

MANUMED EXERCISE COUCH

PARTNER FOR LIFE

Neurological exercise therapy with the Manumed Bobath. The large, extra wide treatment surface of 100 cm to 120 cm makes it easy to support and assist patients during therapeutic exercises. The Bobath and Vojta motion methods can be applied to perfection owing to the unmatched stability. A sturdy couch affording both patient and practitioner the most comfortable treatment positions.

- Very large surface (100 or 120x200 cm)
- Wheel raising mechanism for easy movement of the couch
- Electric or hydraulic height adjustment
- The 2-section model can be used as a neurological exercise or treatment couch

NOTE: ALL-AROUND OPERATION IS AN OPTION.

MANUMED COLOURS

A matching Enraf-Nonius couch for every interior. As in other practices, a pleasant ambience is important in physiotherapy practices. Clients must feel comfortable in the room where they are being treated. As each practice is furnished differently and has its own colour scheme, we regard it as important for the treatment couches to fit in with your look and feel. That is why we can manufacture our treatment couches in several frame and upholstery colours. Our imitation leather upholstery contains no phthalates and is flame retardant – a unique combination that makes this material suitable for medical use!
